

No break, no break, what is it [fishing rod holders for garage](#).

Are you tired of tripping over your fishing rods in the garage? Or maybe you're looking for a way to display your prized catches? Either way, we've got you covered! In this blog post, we're sharing some creative and practical DIY fishing rod holder ideas that will not only keep your space organized but also add a personal touch to your home garage. So grab a cup of coffee and get ready to channel your inner handyman (or woman) because it's time to roll up our sleeves and start creating!

What You'll Need

If you're like most people, you have a lot of fishing gear scattered around your home garage. But there's no need to put all your fishing rods in one spot or risk them getting tangled up. You can create a DIY fishing rod holder using some simple materials and some creative imagination.

Here are the materials you'll need:

- A piece of wood or cardboard that's at least 24 inches long and 18 inches wide
- Paint or a marker

-Screws (preferably 1 inch screws)

-Tape measure or ruler

-Ruler or yardstick to measure the depth of the screw hole

How to Make a Fishing Rod Holder

In order to make a fishing rod holder that suits your needs and looks good in your home garage, you'll need some supplies. You'll need a piece of wood that's at least 12 inches wide by 18 inches long, screws, drill, saw blade, clamps, wood sealer and paint.

1. If the piece of wood you're using is unfinished, sand it down to give it a smoother surface.
2. Drill holes in the ends of the board where you'll be attaching the screws and saw blade. Saw off the excess wood so that the drilled holes are even with the top of the board.
3. Clamp the board to your workbench or table so that it's flat and then screw it into place $\frac{3}{4}$ of an inch from each end using the screws and saw blade.
4. Apply wood sealer to both sides of the screw heads and let dry for at least two hours before painting or finishing your project as desired.

Conclusion

If you're looking for DIY fishing rod holder ideas that can be customized to fit your needs, look no further! Our collection of fishing rod holders includes both standalone and sidebar options that are easy to assemble and perfect for use in any home garage. Whether you're a beginner or an experienced angler, we have the perfect holder for you!
